

WORLD  
OBESITY

# SHARE YOUR EXPERIENCES AND HELP IMPROVE OBESITY CARE AND PREVENTION

Take our short survey and contribute to shaping better obesity care worldwide!

The World Obesity Federation is leading the MAPPS II project to better understand global health systems and the factors shaping obesity care and prevention. We need your insights to help improve obesity services and policies worldwide.

**MAPPS II** is gathering perspectives from:

*Health care professionals*

*Policy makers, advocacy and civil society organisations, and researchers*

*People with lived experience of obesity and their caregivers*

Your input will help strengthen obesity prevention and care pathways, policy development, and health systems around the world.
